OBJECTIVE

Computer Science undergraduate with hands-on experience building full-stack web applications and interactive systems. Strong foundation in frontend engineering, backend and data management with active participation in hackathons and real-world projects.

EDUCATION

Vidya Jyothi Institute of Technology	Hyderabad, Telangana
Bachelor of Technology in Computer Science & Engineering; GPA: 8.76	2028
Narayana Junior College	Hyderabad, Telangana
High School; Percentage: 94.8%	2024
ZPHS Nagole	Hyderabad, Telangana
Secondary School; Percentage: 93%	2022

SKILLS

- **Languages:** Python, C, C++, JavaScript, TypeScript
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, Firebase, SQL , postgres
- **Cloud & Deployment:** Vercel, Render, AWS (EC2, S3 – Basics)
- **Tools & Workflow:** Git, GitHub, Cursor
- **Concepts:** REST APIs, Data Structures & Algorithms, Responsive Design, Component-Based Architecture, State Management

PROJECTS

- AlgoScope– Algorithm Visualization Tool**
- Interactive Web Application | [GitHub: https://github.com/Jaswanth-Reddy-2006/AlgoScope](https://github.com/Jaswanth-Reddy-2006/AlgoScope)
 - Created interactive algorithm visualization platform for DSA learning and practice
 - Tech Stack: React.js, JavaScript, Canvas API, Vercel deployment
 - Implemented step-by-step visualization for sorting, searching, and graph algorithms
 - Designed dynamic memory trace visualization with auxiliary data structure mapping
 - Optimized performance to handle complex algorithm states with smooth animations

EXPERIENCE

AI Frontend Developer Intern
EnviGuide | On-site | Full-Time (Jan 2026 – Mar 2026)

- Developed AI-driven frontend interfaces for production-level web applications.
- Built reusable and scalable React.js components to visualize dynamic AI-generated outputs.
- Designed responsive UI systems with performance optimization and clean state management.
- Integrated AI-based features into interactive dashboards and user workflows.
- Collaborated with cross-functional teams to refine user experience and improve usability.
- Contributed to iterative feature releases in an agile, real-world development environment.

ACHIEVEMENTS

Top 10 Among 1000+ vibe coders

December 2025

- Vibeathon 2025 – 36-hour hackathon in Bangalore; built a student upskilling platform and improved teamwork, problem-solving, and creativity.

VIBE Coder – Full Stack Project Development

- Designed and implemented responsive UI components for complex visualization systems
- Collaborated with team members to ensure consistent design and clean code practices
- Contributed to end-to-end development including frontend logic and backend integration

STRENGTHS

- Strong problem-solving skills with continuous DSA practice
- Quick learner with proven adaptability to new technologies
- Effective team collaborator with hackathon and project experience
